Support The Oregon Safe Roads Act— Yes on Referendum Petition #301

Individual Endorsement Form

Requiring all drivers on the road to pass a driver's test and get auto insurance will reduce accidents, make our roads safer, and protect everyone using our roads from preventable injury or financial losses.

Right now we don't have that protection and too many drivers are unlicensed, untested, and uninsured, but Referendum Petition 301 makes all of these requirements the law of the land.
